Categories

Single Post Title

%title% %sep% %sitename%

EXAMPLE

**Bán nhà Tân Hòa Đông  
Bình Tân - 23m2 - Giá 3.58  
tỷ - Mã: 32N...**

Default title tag for single Post pages. This can be changed on a per-post basis on the post editor screen.

Single Post Description

%excerpt%

EXAMPLE

**Bán nhà Tân Hòa Đông, Bình Tân.  
Diện tích 23m2, 4 tầng, 3PN. Giá 3.58  
tỷ. Liên hệ Zalo để xem nhà. Mã số:  
32NH-23-BT**

Default description for single Post pages. This can be changed on a per-post basis on the post editor screen.

**Post Robots Meta**

Select custom robots meta, such as `nofollow`, `noarchive`, etc. for single Post pages. Otherwise the default meta will be used, as set in the Global Meta tab.

**Post Robots Meta**

- Index ?     No Index ?
- No Follow ?     No Archive ?
- No Image Index ?     No Snippet ?

Custom values for robots meta tag on Post.

**Post Advanced Robots Meta**

- Snippet ?     Video Preview ?     Image Preview ?
- v

**Link Suggestions**

Enable Link Suggestions meta box for this post type, along with the Pillar Content feature.

**Link Suggestion Titles**

Titles

Focus Keywords

Use the Focus Keyword as the default text for the links instead of the post titles.

### Primary Taxonomy

Choose which taxonomy you want to use with the Primary Term feature. This will also be the taxonomy shown in the Breadcrumbs when a single Post is being viewed.

### Slack Enhanced Sharing

When the option is enabled and a Post is shared on Slack, additional information will be shown (estimated time to read and author).

### Add SEO Controls

Add SEO controls for the editor screen to customize SEO options for posts in this post type.

### Bulk Editing

Add bulk editing columns to the post listing screen.
